

Announcing the
JPL Running Club's
4th Annual
HANDICAP & NEWCOMER RACE

Date: Wednesday, April 9, 1986
Time: 11:45am to 12:10pm (staggered start)
Place: Arroyo Seco Canyon (Green Dot Course)
Distance: 2 miles

Once again the Running Club will kick off the Spring NASA Intercenter Competition and JPL Section Challenge with the 2-mile Handicap & Newcomer Race. The race takes place on the Arroyo Seco Canyon Road, starting roughly at noon just above the JPL East Parking Lot.

All runners who accumulated at least three data points (at any distance) in the Club's database for 1985 are automatically entered in the Handicap Race. The Club is in the process of computing handicap times for these runners, which represent our best estimates of the fastest 2 miles they could have run during 1985. On race day, a countdown clock initially reading 35 minutes will be started at 11:45am. Handicap racers will leave the starting line when the countdown clock reaches their individual handicap times. For example, a runner whose 2-mile handicap time is 14:02 will start running when the countdown clock reaches 14:02, or approximately six minutes past noon. Runners can calculate their individual starting times according to the formula: Start Time = 12:20pm minus Handicap Time. Also allow an additional 10 minutes for sign-in.

Runners who did not participate in three or more Club runs during 1985 will compete in the unhandicapped Newcomer Race, which starts immediately after the last Handicap racer leaves the starting line (approximately 12:10pm). All runners in the Newcomer Race start at the same time.

In both the Handicap and Newcomer races, each runner's actual elapsed time for covering 2 miles will be recorded. These times can count toward the NASA Intercenter Competition and JPL Section Challenge.

A list of all runners eligible for the Handicap Race appears on the reverse side of this flyer. If you're not on the list and think you should be, call Sam Dolinar (X7403). Also call Sam if you're on the list and want to know your handicap time before race day.
