FROM: Joe Ferrall (125-112, x4-3159)
SUBJECT: 1988 Running Event Schedule

Attached is a list of the tentative schedule of running events for this year. Most events have one director listed; however, some races are still in need of a director. If nobody steps forward, the May Madness Medley Match and the Great Pumpkin Run will be cancelled for 1988.

There is, of course, need for helpers in all races. If you can be of assistance to the race director, or are willing to be his or her co-director, please give that person a call. Directors should give me names of anybody who is willing to help you.

All events should be preceded with some warning, such as a RC Flyer, UNIVERSE article or announcement. The exceptions to this are the events that occur in April and October which will be announced together as a group by the NASA Competition flyers.

P.S.

If you have any good running cartoons or humor, I'd appreciate receiving a copy of it for possible spicing up of boring letters like the above!
